Software for Creating Project Achievement Sheets

PAS-Maker

Press-in Achievements Sheet

**Promote all your project achievement in the most effective manner!
Better Promotion by Project Achievement Leaflet!**

Project achievements are huge asset for company. Project achievement leaflet is one of promotion tools to effectively promote those experiences. Key project information such as project summary, soil data and photographs are listed in one sheet for each individual project. Those leaflets will be helpful in meeting with engineers and site presentation. Usually experts in image editing were needed to make them. However, the PAS-maker can make anyone enable to create such leaflets.

This software will strengthen marketing ability of your organisation.
