

Piler Eco (Jet) Hose

Water Jet Hose for Severe Ground Condition

The reinforced anti-tension layer is protected by double protection layers of the anti-wear belt and the wire layer. It minimises damage on the hose to prevent work suspension due to breakage on the water jet hose.

- Higher Durability (3 times longer life cycle than Super Jet Hose)
- Applicable to long piles or at gravel layer.

● Specifications

- Length : 10 m, 2 m (D: 1' 1/4")
Mass : 34 kg (Sheet pile length: 10 m)
Max. Tensile Load : 200 kN (20 t)
