

Roppongi Station Aboveground Bicycle Parking

Location : Minato-ku, Tokyo

Completion : June 2017

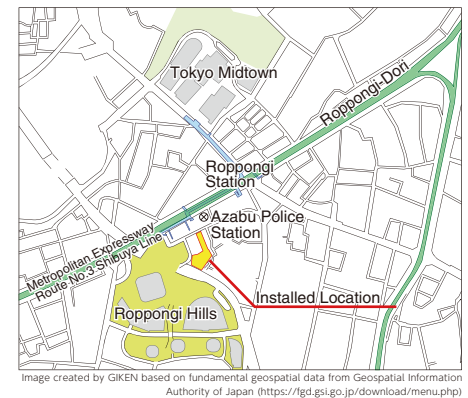

Client : Minato-ku

Installed 2 units of aboveground Eco Cycle in Roppongi, Tokyo downtown.

2 units aboveground Eco Cycle have been installed inside of the rebuilt Minato City Housing. It became as a landmark "Charmed Bicycle Parking" which can change the impression of town more attractive by covering a part of eco cycle exterior with glass, lighting up at night and showing the movement of the stored bicycle and mechanical device. It also makes possible for mutual usage with neighboring Mikawadai Eco Cycle Parking, and this is highly convenient environment in parking. This is 4th achievement in Minato-ku.
